**Empowering
parents,
supporting
children**

The start of parenthood is sometimes made more difficult by other circumstances, such as the lingering effects of childbirth, mental or physical illness, financial issues, premature babies, multiple births, etc.

With the licensed PAT program, we support and empower you on your journey through parenthood. Our collaboration is built around a trusting and cooperative relationship with regular home visits and group meetings.

Registration should take place by the time the child is 9 months old, ideally during pregnancy.

If you have any questions or would like to register, please call us on 079 911 45 00 or online:

The PAT program is free of charge for residents of the city of St. Gallen. For surrounding communities, we will determine the costs for you.
